

# How to Fold Panties & Briefs

**Lay panties out flat and smooth out any wrinkles.**

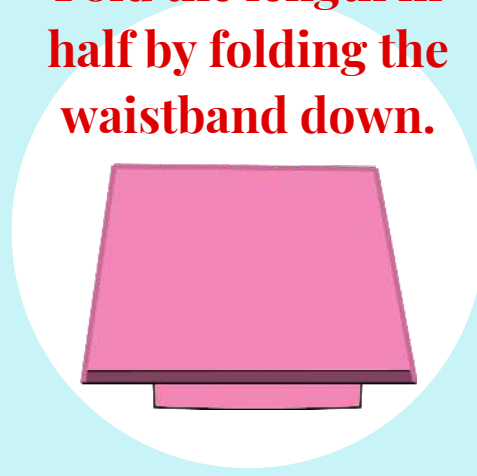

**Fold one side in one-third of the way.**

**Fold the other side in one-third of the way.**

**Fold the length in half by folding the waistband down.**

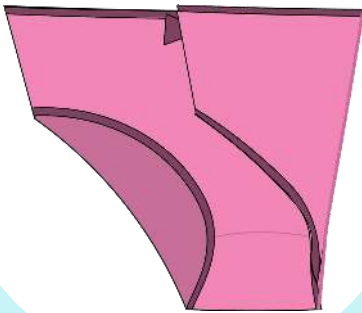

**Filing, rather than stacking, folded panties keep them neat and you can easily see every pair at once. Use a bin or drawer dividers to keep filed underwear neatly contained.**

# How to Fold Panties & Briefs

**These tips work for:**

- **Panties of all styles and sizes.**
- **Mens' brief style underwear.**
- **Children's underwear.**

**Depending on the style and size of the underwear, it may make more sense to fold them in half rather than thirds. And for children's underwear it may make sense to not fold it at all.**

**Depending on the size of the underwear and the size of your drawer or bin, it may work better to fold in thirds or fourths rather than in half.**
