

# Choosing Your College

## How to Use the Worksheet

---

Enter the name of each college on the left column.

Enter factors that are important to you in your choice of college across the top row.

Fill in the importance on a scale of 1 to 10 for each of those items in the light blue box.

For each college, place a ranking between 1 and 10 for each factor to consider in the upper white portion of the box.

Multiply the importance and the ranking and place that number in the bottom red portion of the box.

Average that final number across all the factors for each college and that is **Your** Ranking for the college.

Use this worksheet for your personal use.
